

QUALITY POLICY

"Babikian Healthcare Products" CJSC produces disinfectants and sterilizing materials with a firm commitment to ensuring exceptional and consistent quality standards. The company's objective is to furnish the healthcare sector with reliable hygiene solutions that not only adhere to the most stringent international standards but also actively promote proper disinfection practices.

Given the critical role of our work in public health and our commitment to our customers' welfare, ensuring the safety and quality of our products remains our top priority. Our goal is to create a new culture and approach in healthcare, ensuring continuous improvement and sustainable progress.

The leadership at "Babikian Healthcare Products" CJSC is steadfast in its commitment to implementing and upholding the standards of the Quality Management System in accordance with the ISO 9001:2015 international standard. We prioritize customer satisfaction and trust by diligently identifying and fulfilling their needs.

Our top priority is the health, safety, and well-being of every consumer, with a strong emphasis on the importance of hygiene to prevent the transmission of harmful germs and infections.

The Quality Policy is readily available and implemented across all levels of the company, reflecting management's unwavering commitment to upholding quality requirements.
